I/we hereby agree to allow the NYNJTC to access our property and make up to (3) annual treatments to the designated areas of the specified invasive species: an initial treatment and possibly two follow-up treatments in subsequent years if needed. We also understand that the Dept. of Environmental Conservation may need to enter our property only for the purpose of inspecting the work being performed by NYNJTC. Treatments will be made only during appropriate weather conditions as determined by NYNJTC's licensed applicator, or someone working under his/her license. I/we understand that there will **be no cost to the landowner** for this service which I/we are allowing in order to support the efforts of controlling invasive species.

I/we understand that the NYNJTC will provide me/us with the product label information regarding any product warnings and will explain to me the method of application that will be used for this species. I/we further understand that no application will be performed until I/we have an opportunity to read and fully understand the product information and warnings with regard to the use and presence of the product on my/our property and I/we indicate that its use and application is acceptable to me/us. I/we further understand that NYNJTC will notify me/us at least 48 hours in advance of performing treatment.

I/we hereby agree for myself/ourselves, my/our heirs and assigns, to release the NYNJTC, its officers, directors, employees and agents, from any liability for personal or property damage which may occur in connection with the use of herbicide on our property.

I/we/am/are glad to have this opportunity to support the conservation efforts of the NYNJTC and are thankful for the efforts that NYNJTC undertakes to protect the natural areas within our region. I/We agree that NYNJTC will act as the landowner's agent on this project in matters pertaining to the application of herbicides.
